Certificate of attendance

To whom it may concern,

We are pleased to confirm that Mr. Christopher Okoh has attended the *Frontiers in Robotics and AI* Robotics Student Showcase.

The Robotics Student Showcase was a virtual event hosted by the journal in which we aimed to teach students of robotics about their potential role within the publication process. For example, how to write academic articles, how to interact within the peer review process, and how to disseminate their research.

As an attendee, Mr. Okoh listened to talks from a variety of world leaders in Robotics, as well as student authors who have published in the journal.

Please feel free to contact the editorial office at roboticsandai@frontiersin.org if you have any questions regarding the event.

Best regards,

Ed Spence-Lewis
